Personalised Experience

Our philosophy is to deliver a platinum personalised experience. When you sell your property with Reid Real Estate you deal directly with the licensee and owner of the business, Karen Reid. Ensuring we have a vested interest in the successful sale of your property for highest possible price.

Your Best Interests at Heart

The fact that we are an independent agency means that our reputation and ongoing relationship with our clients far out ways any sales commission or target set by some head office. For example, if we truly believe that you should wait a couple of months rather than accept a low offer for a sale, then we will provide you with this feedback along with supporting evidence vs taking the short term commission.

Negotiation & Marketing

Our property expertise and negotiating skills, coupled with bespoke marketing result in the best possible outcome for you. Our professional marketing packages ensure we attract the right buyers and attain the highest sale price. We will advise on the most suited marketing and sales approach based on your property and the current market.
